Everything Comes Together, the People Protest and Elevate Their Struggle with Force[1]

Regarding the action in HUANTA on June 1, the digital newspaper *La República* published an extensive report on the ambush, stating that there were two highway patrols, two unharmed and two dead, in addition to the confiscation of their patrols' equipment and that of their fallen — short- and long-range weapons, vests, many projectiles, etc. Pedro Yaranga, that miserable "Senderologist", believes that this is an action that will last longer these days. A few days ago, Cuarto PODER CHANNEL 4 and Panorama channel 5 reported on the transfer and isolation of Chairman Gonzalo, denouncing and campaigning against the dark role of the ROL[2] for their dark deeds and their marches to distract the people and try to impede the GENERAL REORGANIZATION OF THE PARTY AND THE DEVELOPMENT OF THE PEOPLE'S WAR.

Chairman Gonzalo, Leader of the Party and the revolution, the greatest Marxist-Leninist-Maoist on the face of the Earth, shows the mettle of a great leader of our class, that he is a true communist through and through, that he is the most important revolutionary prisoner of war in the world, maintaining his warrior courage and communist spirit at the highest level in the highest shining trench of combat of the people's war. The enemy returned him to the Naval Base where he will remain in confinement and absolute isolation. He was transferred with revisionist trash and CIA agent Montesino, all in an attempt to cover up the violation of all the rights of the greatest prisoner of war in the world. The Chairman responds with a firm attitude and utmost optimism to the heartbeats of the heroes of our people and their best children who have given their lives in these 37 years of invincible people's war. We are celebrating the 31st Anniversary of the Day of Heroism with the actions of the EPL.[3]

Everything comes together. We see protests in the people, and they escalate their struggle with determination, such as the movement against the mining company in las Bambas. The government of the yankee Kuczynski declared a state of emergency for 30 days in the province of Cotabambas, Apurímac region, on February 10, 2017. The newspapers reported: "The National Police will take charge of internal order with the support of the Armed Forces, since a group of community members has been protesting due to government and MMG Las Bambas mining company's non-compliance". But the people do not falter, their courage grows, and they resume their fights. It seems like they might fade, but it's only to ignite even more.

The SUTEP of the Center has called for an indefinite national strike; those aligned with the ROL and MOVADEF within the "sutep" will organize a gathering on June 24 in Lima. As always, they want to hitch a ride and lead the Class-Conscious and Combative SUTEP of the Central Region down the path of revisionism. The ROL aims to counterpose the struggles of the teaching profession with the broader struggle of the people and undermine the revival of the Classist and Combative SUTEP. However, their divisive and anti-class conscious actions are destined to fail. Denounce how the rats of the revisionist and capitulationist ROL want to undermine and infiltrate in this struggle.

Today in Tumán — Chiclayo, June 13, 2017, the newspapers reported, "Protests in Tumán do not stop despite the fact that the Executive Branch declared a state of emergency in this district, which is located in the province of Chiclayo, Lambayeque region". Thus, the people increase their protests. The genocidal FF. AA.,[4] experts in defeat, have sent 200 troops to repress and bring order, which implies further reactionary action by the old Peruvian State and a preying on the defenseless and unarmed masses, which we repudiate and condemn.

Today they will also make known the proofs of the crimes committed by Captain Carlos (the fascist, genocidal and homeland-selling ex-president Ollanta Humala Tasso), the PCP[5] unmasked him in due time, but the reactionaries of the same genocidal underbelly, have only just brought him to light after they themselves had cleansed him and named him president of the old landlord-bureaucratic State at the service of imperialism, mainly Yankee imperialism. Today, they do it not for the sake of justice but because of the collusion and the struggle that is worsening and corrodes them. After playing this "card" they will make amends, because they are about to cleanse the fascist, genocidal and homeland-selling Fujimori, along with other military leaders.

Now, the agitation and armed propaganda of the EPL continued in the northern zone of Lima with leafleting on Peru Avenue and University Avenue in San Martin de Porres and the surrounding area, where there is a large presence of lumpens that rob the masses, but the main thing is that there are factories where there are workers and other toilers, the action was carried out at 11:30 p.m., approximately on the night of the 9th of this month, the displacement of the contingent was large and forceful, an entire Detachment participated in the action, as planned.

The people's war is the only road and the EPL and its combatants, increasingly raising their militancy, directed by the PCP, will sweep away all these reactionaries, fascists, genocidaires and homeland-sellers who commit so many evils and crimes against the

masses daily, until they leave no stone unturned, always directed by the PCP and firmly subject to Chairman Gonzalo and the all-powerful Gonzalo Thought.

Defend the Life and Health of Chairman Gonzalo, developing the People's War!

Long live the 31st Anniversary of the Day of Heroism!

Success in your work, greetings to all the comrades, companions, and combatants in Europe and especially to those in Latin America and THE OPPRESSED PEOPLE, to the Communist Parties, Maoist Organizations, and revolutionaries, a heartfelt embrace, we say: PEOPLE'S WAR UNTIL COMMUNISM! YANKEES GO HOME!! YANKEES OUT OF THE MIDDLE EAST, NORTH KOREA AND VENEZUELA!!
