GONZALO THOUGHT IS PEOPLE'S WAR UNTIL COMMUNISM![1] [2]

Revolutionary greetings and some clarifying points:

As we can see, the statement by the FDLP-ECUADOR[3] on the 124th anniversary of Chairman Mao's birth[4] is very precise, forceful, and relevant. We adhere to and reaffirm the universal validity of Marxism-Leninism-Maoism and, above all, the application of Gonzalo Thought to the concrete conditions, a contribution of universal validity that serves the World Proletarian Revolution. Today more than ever, the resplendent and unshakable Marxism-Leninism-Maoism, Gonzalo Thought; because it is Chairman Gonzalo who contributes to a leap of decisive importance in the three integral sources of Marxism-Leninism-Maoism, imposes Maoism as the new, third and higher stage of Marxism, discovers the laws of BUREAUCRATIC CAPITALISM, crushes old and contemporary revisionism with people's war, develops and elevates it to Strategic Equilibrium, resolves the problem of Power and builds the new State, destroying the old Peruvian State piece by piece, and also generates a power vacuum and destroys the enemy's living forces through the EPL[5] AND THE MASSES OF THE NEW POWER, and we reaffirm that Gonzalo Thought is: People's War Until Communism!, EVERYTHING IS ILLUSORY EXCEPT POWER! Today more than ever, we will give our lives and make the necessary sacrifices in defense of the life and health of Chairman Gonzalo, developing the People's War! Serving the General Reorganization of the Party AND ITS VICTORIOUS TRIUMPH, WHICH FOR YEARS HAS BEEN POSTPONED AND UNDERMINED BY THE NEW REVISIONISM, and by those who fall into that game out of ignorance and rightism, without centralizing themselves, but going around as spies or infiltrators of the revisionist ROL and the LOL;[6] we already know the former, even if they send new and young ones, the latter are just chatter and rage against the People's War and contempt for Chairman Gonzalo and those who today are promoting the General Reorganization of the Party. But both are two sides of the same coin, as the Great Lenin teaches. We know how they operate and what they are involved in, only bravado and threats that they make where they reach the masses who do not even receive them because they never did anything, only

hatred towards the People's War and the current Leadership of the PCP[7] that stands firm against wind and tide. Those traitors and capitulationists are snooping around like the reactionaries, and we will crush them along the way and begin to sweep them away.

We unmask and distance ourselves from the "Luminoso Futuro de Quibian Gaytan" page, which often publishes articles and flyers of the NEW REVISIONISM of the LOL and, more recently, of the revisionist and capitulationist ROL, where those rats and traitors who have now been sentenced sign and cover up for Miriam so that she can manipulate the hoax as she pleases and to her advantage in her struggles and contradictions with other groups and factions, since she defends nothing but her own skin and uses our Great Leadership of Chairman Gonzalo to hide her crimes. Thus, the reaction and imperialism attack and plot against our beloved and respected Leader. We condemn and combat these childish positions of trafficking and deceiving the masses and the people. Today, they seek once again to run as candidates in regional, municipal, and local elections, to MOVE until the next general elections, and we say to them: Elections, NO!! People's War, YES!!

On top of all this, there is the arrival of the genocidal "Argentine" Pope, who will be welcomed with great fanfare by the reactionaries and all the revisionist cheerleaders, but the fury of the people is building and organizing to reject and combat him on all possible fronts. Today, when they talk about reconciliation, which is nothing more than paving the way for repression, hatred, and genocide against the combative people, the enemy is preparing itself through its "low-intensity war" and all its psychological operations against the People's War, Chairman Gonzalo, and mainly to combat the plans for the General Reorganization of the Party, the PCP. BUT THESE ARE ALL JUST DARK DREAMS, NIGHTMARES FROM WHICH THEY WILL NOT BE ABLE TO AWAKEN, and the PEOPLE'S WAR will inevitably triumph; because it is the path of all the people, of the deep and profound masses, always toward the immediate goal of conquering power in the whole country country and the final goal, THE ALWAYS GOLDEN COMMUNISM.

A big hug and greetings to all our companions around the world and especially in Latin America.
