Proletarians of all countries, unite!

LONG LIVE CHAIRMAN GONZALO, CREATOR AND FORGER OF THE PEOPLE'S LIBERATION ARMY![1]

> "Any of us can fall, but the Party will continue, our immolated lives will encourage those who remain, and the road will continue until communism is imposed on Earth. This is our conviction".
>
> "…we are accomplishing whatever the Party demands and requires. The reactionaries aim to destroy the leadership, the Party, and crush the revolution, beyond separating the Party from the masses; to annihilate the Party is to crush a revolution, but not to finish it, because as long as there are communists and masses it can never be finished. There are very important things which must be taken into account to preserve the Party's leadership".

> Second Plenum of the Central Committee.

On this anniversary of the birthday of our beloved and respected Chairman Gonzalo, and the creation of the People's Liberation Army. We begin by expressing our greetings and full, conscious and determined subjection to Chairman Gonzalo, our leadership, head of the Party and the revolution, the greatest living Marxist-Leninist-Maoist on the face of the earth, center of Party unification; great political and military strategist; philosopher, teacher of communists. Likewise we express our greetings and conscious and voluntary subjection to our all powerful ideology Marxism-Leninism-Maoism, Gonzalo Thought; principally Maoism as a new, third, and higher stage at the universal level. Specifically in our homeland, we have Gonzalo Thought, the concrete and creative application of Maoism. We express our salutations and conscious and voluntary subjection to the Communist Party of Peru, the heroic combatant and organized vanguard of the Peruvian proletariat; to the Party events: To the First Congress, Marxist Congress, Marxist-Leninist-Maoist, Gonzalo Thought Congress. Sanctioning at the highest level and party instance, our Basis of Party Unity, the foundation that guides all our action, with its triple content: 1. Marxism-Leninism-Maoism, Gonzalo Thought; 2. The Program; 3. The General Political Line, with its center, the Military Line. To the First, Second, and mainly to the glorious, historical, and transcendental

Third Plenum whose masterful synthesis is Chairman Gonzalo's victorious, defiant, and relevant Speech given on September 24, 1992.

We salute each and every one of the leaders, cadres, and militants of the Communist Party of Peru both in the country and abroad, who have been carrying out the pending task of General Reorganization to overcome the difficult and complex bend. We also salute the fighters of the hardened and brave People's Liberation Army: Gonzalo's Iron Legions on another anniversary of its creation, we salute the successful actions developed in the countryside and city; likewise to the masses who work with us and the people in general for the victorious advance in the fulfillment of the political tasks of the Party.

Likewise, we express our dissociation, rejection and struggle against the new revisionism: of the revisionist and capitulationist right opportunist line and its black head, the rat mourner "Miriam", and the left opportunist line whose head acts as *caudillo* "José", under whose shadows in close relationship they have set up false party apparatuses, and have usurped others, in their black purpose of liquidating the Party and annihilating the People's War. Know that sooner or later they will answer for their crimes before the Party and the People's War.

Finally, we salute the struggles of the international proletariat, oppressed nations and peoples of the world; the International Communist Movement and the struggle for the constitution and reconstitution of militarized Marxist-Leninist-Maoist Communist Parties, and mainly we solidarize and support the People's Wars of India, Turkey, Philippines, that together with the People's War in Peru we are part of the New Great Wave of the World Proletarian Revolution commanded by Maoism, that in hard and tenacious struggle on all levels is crushing the general counter-revolutionary offensive headed by the Yankee gendarme and its spawn, new revisionism, that at world level its black heads are Avakian and Prachanda.

I.- DEFEND THE LIFE AND HEALTH OF CHAIRMAN GONZALO!

With the coup of April 5, 1992, the old Peruvian State intensified its Genocidal Political Line against the Party and the Peruvian people as part of its task of Annihilating the People's War, developing its Yankee strategy of "Low Intensity Conflict" to "recover positions and maintain its system". From there they have been applying a sinister Fascist Plan of Isolation, Annihilation, and Genocide against political prisoners and prisoners of war, the spearhead of which is aimed mainly against Chairman Gonzalo's great leadership.

This sinister Fascist Plan of Isolation, Annihilation and Genocide has the following components: **A.-** Fascist anti-subversive legislation, in violation of its own constitution of its own demo-bourgeois legal order and of International Human Rights conventions and treaties. Since his arrest, Chairman Gonzalo was arbitrarily and illegally taken

to a Military Tribunal and subjected to an infamous summary trial (with faceless military personnel), without any guarantee for his physical and moral integrity, subjected to humiliating and humiliating treatment, without the right to defense, to due process, etc. Condemning him to life imprisonment, the new trials have only formalized "legalizing" the sentence for the "crime" of being Chairman Gonzalo, Great Leadership of the Party and Revolution, of leading the People's War against the old Peruvian State subjected to imperialism, mainly Yankee imperialism, to establish the People's Republic of Peru on the march towards communism. **B.-** Fascist Concentration Camp of the Naval Base, also violating its own constitution and international treaties that prohibit the permanence of civilians in military prisons, Chairman Gonzalo continues illegally in a military prison controlled by the Navy and the CIA, subjected to absolute isolation or solitary confinement (separated from the other prisoners) for more than 20 years, to cellular confinement in subhuman conditions constituting a permanent torture regime seriously affecting his health and life. **C.-** Psychological operations, on the basis of Chairman Gonzalo's absolute isolation, the CIA–SIN take up sinister and crude hoaxes in service of both the revisionist and capitulationist right opportunist line and the left opportunist line. All of this serves the insane and vile plan to discredit, isolate, and assassinate Chairman Gonzalo; a sinister plan that we unmask, reject, and will continue to fight with People's War. And we give our firm commitment to defend the health and life of Chairman Gonzalo, with People's War, giving our own lives in it, assuming the cost and the quota demanded by the revolution.

II.- THE OLD PERUVIAN STATE, PERUVIAN SOCIETY, AND ITS THREE TASKS, ARE A HISTORICAL AND POLITICAL IMPOSSIBILITY.

To **restructure** its State, the fascist, genocidal and pro-Nicaraguan country-selling regime that today is headed by Ollanta H. (Alias "Captain Carlos"), which in its process of greater state reactionarization is concretized in presidential absolutism, fractured and denying its "representative democracy", intensifying the collusion and struggle of the factions and groups of the big bourgeoisie, expressed within the Armed Forces (Navy-Army with preeminence of the former) and in turn with its police forces. Where is its military and police reform?

Its so-called "reforms" through a set of fascist laws (denying union, fundamental and people's rights) in the education sector (teachers, university), civil service law (state workers), pensions (retirees), military service (against the youth), tax, etc. And now health is nothing more than "reduction of the state for greater privatization" to conform to the dictates of its master, mainly Yankee imperialism, and its hegemonic plans in the region of the "Pacific Alliance" and the infamous "transpacific treaty" that violate and deny our national sovereignty.

To **Re-impulse**: General Crisis of bureaucratic capitalism, third moment. The deepening of bureaucratic capitalism has accentuated semi-feudalism and semi-coloniality, maturing better conditions for the development and triumph of the People's War. After the rebound of its GDP in 2009, it decreases year by year, coinciding with the World Recession and entering the second half of this decade in which bureaucratic capitalism worsens to a very complex situation. They focus on mining and agro-exports, the former for greater plunder, aiming to generate regional "development poles", with the risk of fragmentation and partition of the national territory, the latter with its "investment and rural development"; and, "food security" has served for a greater and new concentration of land, to the detriment of the mainly poor peasantry, destroying the national agriculture. The construction sector is linked to drug trafficking capital. This year they will have a deficit in their trade balance. Contained inflation with deflation (reduction of the purchasing power of the people) plus violent capital gains that generate salaries, wages and pensions of hunger, sickness and death. They will only spill more "blood, pain, and tears" of the proletariat and the Peruvian people.

To **annihilate** the People's War and liquidate the Party, each time they adjust and develop their "Low Intensity Conflict", they imprison the masses in the countryside imposing them as mesnadas in the so-called "rondas" as a complementary armed force, cannon fodder for the counter-subversive war and shield of the armed forces; In the cities they are applying the Yankee strategy of "citizen security" to entrench themselves in the cities, corporatize the population (in urban patrols and neighborhood councils), control the population, generating white terror, in the same style as the Rodrigo Franco, Colina and other commandos, they have set up apparatuses with members of intelligence together with criminal leaders to extort, blackmail, even assassinate popular and union leaders, etc. basically in civil construction and the people in general.

Likewise, under the pretext of "Fight against drug trafficking" they carry out their genocidal campaigns of encirclement and annihilation. We also denounce and reject the abject Peru-US military treaty signed in March of this year, which among other things contemplates the installation of a military base in Piura, the use of drones to "combat" the coca growers, the airport in PICHARI-CUSCO, the control of uranium in Puno, etc. Likewise the military treaties with Russia and Israel, and the support of France in logistics and police training to crush the growing popular protest.

Thus demonstrating the greater and growing interference and penetration of imperialism, mainly Yankee, violating our national sovereignty, putting our territory and our homeland at risk.

III.- THE DEMOCRATIC ROAD BEGINS TO FURTHER DEVELOP AS A PEOPLE'S ROAD OF LIBERATION.

Comrades, fighters, Peruvian people, although we are still going through a difficult and complex bend, we are clear and firm in the course to follow. Reaction and the revisionist and capitulationist right opportunist line have set up Movadef to lead the masses down the black road of parliamentary cretinism. The traitor Artemio "kept up arms" until he fulfilled the objective of destroying everything he could of the Huallaga Regional Committee, so that the Yankees could apply their sinister plans of control of the Amazon. The mercenary José and his gang have usurped the Main Regional Committee, in order to submit to the plans of their Yankee master and fight the People's War. Abroad the infiltration (agents of CIA mercenary Benedicto Jimenez) has usurped the leadership of the Peru People's Movement and the Red Sun magazine, etc. That is the situation.

But the left is maintained and strengthened. The Party has never been paralyzed, and the People's War has never stopped for a minute. The forging of Chairman Gonzalo, the ideological and political strength clinging to our Basis of Party Unity as the foundation that guides our action, the concentric and militarized Party building have guaranteed it. So this profound imbalance is one more proof, welcome! On this date we give our firm commitment to put in tension all our forces for the General Reorganization of the Party in the midst of the People's War, in struggle to the death against the new revisionism of the revisionist and capitulationist right opportunist line, and of the left opportunist line.

What corresponds? It corresponds: to strengthen and develop the People's Liberation Army. It corresponds to defend the New Power, to recover what has been lost and to give shape to the People's Liberation Front with People's War. It corresponds to strengthen the People's Liberation Movement, promoting the growing popular protest, all managed with People's War, applying the established tactic: "Unite the people, against the fascist, genocidal, pro-Yankee, and country-selling regime of Ollanta Humala, developing the People's War!" In accordance with: "Promote the campaign to impose Maoism as the new, third, and higher stage of Marxism; and, that it be the command and guide of the World Proletarian Revolution; united to the campaign for the defense of the life and health of our leadership Chairman Gonzalo and his all powerful Gonzalo Thought with People's War!"
