LONG LIVE THE 37TH ANNIVERSARY OF THE INVINCIBLE PEOPLE'S WAR!

COMMUNIST PARTY OF PERU

Peru, May 17th, 2017

> "This convergence of the new revisionist counterrevolutionary offensive, in collusion with imperialism, dreams of the definitive destruction of Marxism, dreams of sweeping away all that the revolution has done, all its achievements, all its heroic action, they want to enthrone once again the old, the proterious domination of reaction in the most outdated and sinister moment of imperialism. This has repercussions and we see capitulation and monstrous renegades, it occurs in the petty bourgeoisie, in the workers' crusts, the MRTA for example is the proclamation of capitulation in the country; they spread "peace", bourgeois democracy, market economy, human rights, reactionary ideologies, bourgeois culture; they capitulate before imperialism. Capitulation is expressed in two facets: capitulation before the native reaction and capitulation before the world reaction, it is always so; its objective is to sell the revolution; it is prone, then, that it must be razed to the ground with blood and fire and that requires a strategy and a tactic..."

DOC. "PREPARATORY SESSION OF THE SECOND PLENUM OF THE CENTRAL COMMITTEE - 1992"

CHAIRMAN GONZALO

In this month of Red and Combative May. On May 1st Day of the International Proletariat; May 6, 7, 8 and 9, Day of Heroic Resistance and May 17, beginning of the Marxist-Leninist-Maoist People's War, Gonzalo Thought, we greet with revolutionary jubilation the international proletariat,

the oppressed nations, the Maoist parties and organizations, the militants of the Communist Party of Peru (PCP) in the country and abroad, the fighters of the EPL and the masses, who with their blood water and write the new dawn of the World Proletarian Revolution.

On this 37th Anniversary of the vigorous and victorious People's War, we reaffirm ourselves in our BUP, foundation that guides all our action with its triple content: 1) Marxism - Leninism - Maoism, Gonzalo Thought; 2) The Program of the Democratic Revolution; 3) The General Political Line and its center the Military Line, approved and sanctioned in the First Congress of the PCP, Marxist Congress, Marxist-Leninist-Maoist Congress, Gonzalo Thought; first imperishable milestone of victory, son of two great fathers: the Party and the People's War. This reaffirmation is necessary and unavoidable today more than yesterday, because we are facing a general counterrevolutionary offensive, headed by mainly Yankee imperialism, reaction and the new revisionism, not only in Peru but at world level that pretends to conjure up the revolution as the main historical and political tendency and that will be even more so.

On May 17, 1980 red banners with hammers and sickles were unfurled in the wind, with the beginning of the People's War, the Strategic Offensive of the World Proletarian Revolution was entered, proclaiming the "Rebellion is justified", summoning the proletariat, the poor peasantry in particular and the poor peasantry in particular, and the poor peasantry in particular, the poor peasantry in particular and the Peruvian people in general to stand up in struggle organized in the three instruments of the revolution to write the new history in the fields of our tumultuous geography, sealing old times of peace and opening new times of war, with the rifles to storm the skies and open the new dawn.

Internationally, the imperialist economic crisis is being unloaded on the shoulders of the Third World countries, fueling and raising the masses; all this reaffirms that the revolutionary situation in the world is a fact and not a mere lucubration, even if it occurs with unequal development, as stated by Chairman. Mao "the next 50 to 100 years will be a time when imperialism and reaction will be wiped off the face of the earth". Collusion and struggle. It is developing more and more every day, recent events such as Syria, Afghanistan, North Korea prove it. If there is collusion, there is conflict. The contradictions at world level are sharpening, and mainly the main contradiction between oppressed nations and imperialism and the third contradiction, inter-imperialism, is sharpening. The fascist and arch-reactionary Donald

Trump, head of U.S. imperialism, carries out genocides, looting, bombings and a growing and acute trade war, in order to consolidate his world hegemony. Germany, for its part, has drawn up its plan of action to become the sole superpower, enlisting new contingents and its military capacity in the Middle East and all of Europe. Russia is extending its diplomacy and direct military intervention in West Asia. China, no longer satisfied with its growing commercial interference in Africa and Latin America, is seeking pacts and agreements to strengthen its positions and is constantly increasing its military budget. France, England, Japan, Italy and others are not lagging behind in all these preparations, as Chairman Gonzalo said in his masterful and current Speech "...the same contenders of World War I and II, are generating, are preparing World War III... We cannot allow it! Enough of imperialist exploitation! We must put an end to them!...".

In the revolutionary camp. This year we commemorate the 100th Anniversary of the Triumph of the October Socialist Revolution led by the Great Lenin in Russia, which marks an extraordinary historical milestone in world history, the end of the bourgeois revolution and the beginning of the New Era of the World Proletarian Revolution. The struggle between revolution and counterrevolution in the era of imperialism and the World Proletarian Revolution has bequeathed us the most important experiences of the class struggle. The PCP joins in the celebration and we call to fulfill it with more People's Wars.

In India the revolutionary armed uprising of Naxalbari celebrates this month its 50th Anniversary influenced by the GPCR and today this struggle is led by the CPI (Maoist). The People's War in India, Turkey, the Philippines and Peru is the great red torrent of the World Proletarian Revolution that summons all the oppressed countries to initiate and develop the People's War to oppose the world imperialist war of plunder by building new Maoist Communist Parties to lead.

Nationally, the present context demands us to combat the fascist, genocidal and country-selling regime that since the 90's with Fujimori, Toledo, García Pérez, Ollanta Humala (cap. Carlos) and today the Yankee P.P. Kuczynski, faithful lackey to his master, who dreamed and continue to dream of fulfilling their three counterrevolutionary tasks as an immediate necessity of imperialism, mainly Yankee imperialism and Peruvian reaction: to relaunch bureaucratic capitalism, restructure the old State and annihilate the People's War and the PCP, we tell you are a historical and political impossibility and will be even more so as soon as the General Reorganization of the

Party takes place.

The current situation is characterized by the class struggle in different parts of the country, today, almost a year into the government of the genocidal P.P. Kuczynski, our country continues in a deep economic, political, cultural and social crisis from which it cannot and will not be able to get out, today the four decades have come together confirming what Chairman Gonzalo established that bureaucratic capitalism has entered its third moment of crisis and inexorable destruction since 1980, accelerating its decomposition of the old State by the People's War that operates in our country and which the PCP leads. To this we add the natural disasters (coastal child); in the face of this calamity on April 27 the Congress approved a disastrous law for "National Reconstruction" with changes and 3,500 million dollars of budget, and where will this money come from? From imperialism, as always the beneficiaries will be the big construction and imperialist companies, which will fall on the shoulders of the broad working masses and greater submission to imperialism.

The national industry continues to be in crisis, harming those who produce electric motors, mining machinery, textiles, tires, etc., generating unemployment of 130 thousand jobs for the working class, increasing hunger in poor households. The minimum living wage (RMV) of 850 soles does not even cover the basic family basket and they have destroyed labor rights and free unionization.

Once again we renew our commitment to remove heaven and earth to Defend the Life and Health of Chairman Gonzalo with People's War! Before the attacks of Yankee imperialism, reaction and the traitors of the ROL R. and C. and the LOI. Today in the farce of the "new trials" they want to dent his morale and he shows himself defiant and fights them with communist hatred respecting his rights as a Prisoner of War and we salute with revolutionary fervor the campaign carried out by the Maoist parties and organizations in Defense of our beloved Chief.

On this Anniversary we reaffirm ourselves in the conquest of Power throughout the country, through revolutionary violence that is concretized in the People's War, we also reaffirm ourselves in the pending task of the General Reorganization of the PCP in function of resolving the problem of the difficult and complex bend, correcting the problems committed in the past that did much damage, which reaction and the new revisionists have used for their black ends; our commitment is that the General Reorganization of the Party leads to its culmination.

Finally, the PCP on this special date of historical and political transcendence, makes a call to the Peruvian proletariat, the peasantry and the people in general to organize themselves in the ardent People's War to achieve their real emancipation, which is directed by the PCP.
